2022.07.12 Project Skunkworks: Dried Enzyme v3

Creative Work by: Fernando Andrade Jr., M.S., CEO, Founder of Radegen Biotechnology. Director of the RadegenBio Skunkworks Division.

Creative Business Concept:

- The use of (1) for preparing dried enzymatic reagents.
- The use of (2) for identifying non-eukaryotic cryoprotectants to meet our goal of minimal use of eukaryotic proteins and cells in Radegen Biotechnology processes and technology.
- The core (3) technology for developing Radegen Biotechnology dedication technology.
- (4) Additional reference.
